

CZECH – CHINESE SEMINAR on
CARTOGRAPHY, GIS and REMOTE SENSING

Organized under auspices of Assoc. Professor Dr. Jaromír LEICHMANN

Dean of Fakulty of Science, Masaryk University

Brno, Czech Republic, July 7, 2010

Place: Institute of Geography (IG), Laboratory on Geoinformatics and Cartography
Faculty of Science, Masaryk University, Kotlarska 2, Brno, Czech Republic
Lecture Hall Z2

Research Guarants:

Prof. Dr. Milan KONEČNÝ, *Masaryk University* and **Prof. Dr. LI Deren**, *Wuhan University*

PROGRAM

9.00 Opening by **Assoc. Prof. Dr. Jaromír LEICHMANN**, *Dean House*

9.30 Welcome speech of **Assoc. Prof. Petr DOBROVOLNÝ**, *Director of Institute of Geography*

9.45 – 11.10

M. Konecny: Main Laboratory Research Projects

K. Stanek: Cartographic Generalization Procedures for the Adaptive Mapping in the Emergency Management

L. Friedmannova: A Design of the Task Oriented Symbol System

11.10-11.30 *Coffee/Green Tea Break*

11.30-12.30

Z. Stachoň: Perception of Cartographic Representations under Specific Condition

T. Řezník: Metadata and Standardization in SDI

R. Štampach: Cartography of Health Data: Way to Inform People

13.00-14.00 *Lunch*

14.15 – 17.15

LI Deren: Technology Transfer of Geomatics in China

MA Hongchao: Airborne Topographic LIDAR: Principles, Applications, Works

LIU Yaolin: Land Use Database Generalization Indices Based on Scale and Land Use Pattern Metrics

17.30

Discussion and end of the event
